Just as long as Germans continue to be sestion and directafied there will be an opportunity for a man like the political quack doctors in the United

Sinter who find a market for their wares when the people's faith in unspeciacular remedies is shaken, Adolf Bitlery position of trust will be destroyed the moment the people come to believe in him. Three things may happen: Germany's economic condition may be improved to the point where Hitterism may fied on constantly increasing discontent to seize control as a dictator; or the man, littler, may so compromise his views with those of his opposition as to render him secrepishic as a conservative feader before his name simils at the head of Germany's enversing officials. There is much in the history of human experience to commend the last possibility to attention at this time when the possibilities of littlerism are being discursed so fearfully.

Auditor Thomas now insists that the budgets be prepared exactly according to law, to avoid repeti-tion of such happenings as there. Control Expenditures

Budgets, Auditor Thomas pointed Budgets, Auditor, Thomas pointed out, are the principal means provided for tapayers generally to control governmental expenditures. Each subdivision must conduct a public hearing on its budget before the budget is forwarded to the budget commission. Citizens are given the opportunity to study the budgets several days in advance of the hearings against any proposed expenditure which they deem unfacessary.

unnecessary.

The budget commission can not refuse to levy for the full amount asked by any subdivision, as long as the rate for all purposes in that aubdivision remains within the 15-mill limitation fixed by law, the auditor explained. All rates in excess of the 15-mill limitation result from special levies and bond is used authorized by a vote to the citizens, he said.
